

# 1 year Dormant Clematis and Vines

Available: November 1<sup>st</sup> – June 1<sup>st</sup>

Now in easy plant wood fiber pot!

New wood fiber pot allows roots to penetrate surrounding soil easily and quickly

- **No transplant shock**
- **Save on labor costs**
- **Less plant mortality**
- **No pots to discard**

Minimums: 50 plants (10 per variety)

All Clematis are shipped with a four-color picture tag with full planting and care instructions on back.

## Advantages of buying dormant Clematis

**Lower Shipping Costs** – Up to 75% less shipping and packaging charges.

**Low Risk of Frost Damage to Shipment** – Dormant plants can freeze as low as 28°F in shipment without any effects on plant performance. This allows shipment almost any time of the year without having to use expensive air shipping.

**Stores Well** – Plants can be held in original shipping container for up to six months as low as 35–45°F. This allows you to buy plants in one shipment and still stagger plantings.

**Picture Tags** – Four color picture tags giving full planting instructions included with each plant.

**Quality** – We supply some of the hardiest and heaviest rooted clematis. All plants are propagated and grown in the U.S.A. so plants do not have to adapt to U.S. growing cycle or climate. This assures that your plants will always be vigorous.

**Dependable Delivery** – We make every attempt to ship orders on time although weather may cause delays. We ship UPS, Federal Express and Truck. We do not ship air freight.
